

# Weberneedle® Lasertubes

In the recent years we have worked hard to improve the fixation of the laserneedles on the patient's body.

**We had set ourselves the following goals:**

- Simplification and speed up of the fixation process
- Strengthen the fixing

**The results speak for themselves:**

We can offer now a **self-adhesive** plastic tube, which is easy to use and guarantees a **quick and clean** work on the patient.

We can also offer the new tubes at a **lower unit price.**

It is obvious that this new tube is a CE-certified biocompatible product.

Order now your **free sample** to convince yourself of our new tubes.

I would like to order some free copies of the new Weberneedle® Lasertubes.

Art. Nr. 2018 - Weberneedle® Lasertubes:

1 Package      75,00 €

5 Packages      70,00 €
